

Course Outline -- BROAD BASED TECHNOLOGY 9

Instructors: Mrs. Brannon, Mr. Brannon, Mr. Leonard, Mr. Mulligan, Mr. Davis, Mr. Plourde

Course Description: Broad Base Technology (BBT) is designed to provide students with the opportunity to explore technology in a multi-activity learning environment. The learning environment will consist of the students working collaboratively. Each student will complete seven or eight units of study (approximately 10 hours each in length) in a technology-related area. Students will think critically and act logically to evaluate situations, solve problems, and make decisions relative to the area that is being studied.

Expectations:

- Students will arrive at class on time.
- Students will work collaboratively to meet the outcomes associated with units of study.
- Students will manage time effectively in class in order to meet the requirements of the course.
- Students will keep a daily journal of work completed in class.
- Students will complete all assigned work during class time, or will be assigned lunch hour Learning Labs to complete unfinished work.
